What is Whitelabel?

A white-label reseller program allows partners to sell products and services of a software provider under a brand name of their choice. This program is suitable for companies that want to expand their product offering without the need to develop their own software from scratch.

- ➡ Start readymade business in hours
- ➡ Set your own pricing to increase revenue
- ➡ Expand without limits with unlimited licensing option

Benefits of white label WhatsApp marketing platform

-  Complete Whitelabel
-  Low Investment
-  No Prior Skills Required
-  Earn great earnings

Custom Licenses, Unified Management

White-Label Licensing Made Easy

-  Assign individual licenses to each customer (e.g., 50 customers = 50 licenses).
-  Each license gets a dedicated login/setup, managed centrally by you.
-  Manage start and end date of license easily.

Our whitelabel solution offers a powerful tool for resellers to customize and sell to their own clients under their own brand name. Here are some steps to get started with reselling our software:

UNDERSTAND THE PRODUCT

It's important to have a deep understanding of the features and capabilities of our whitelabel solution

DECIDE ON PRICING

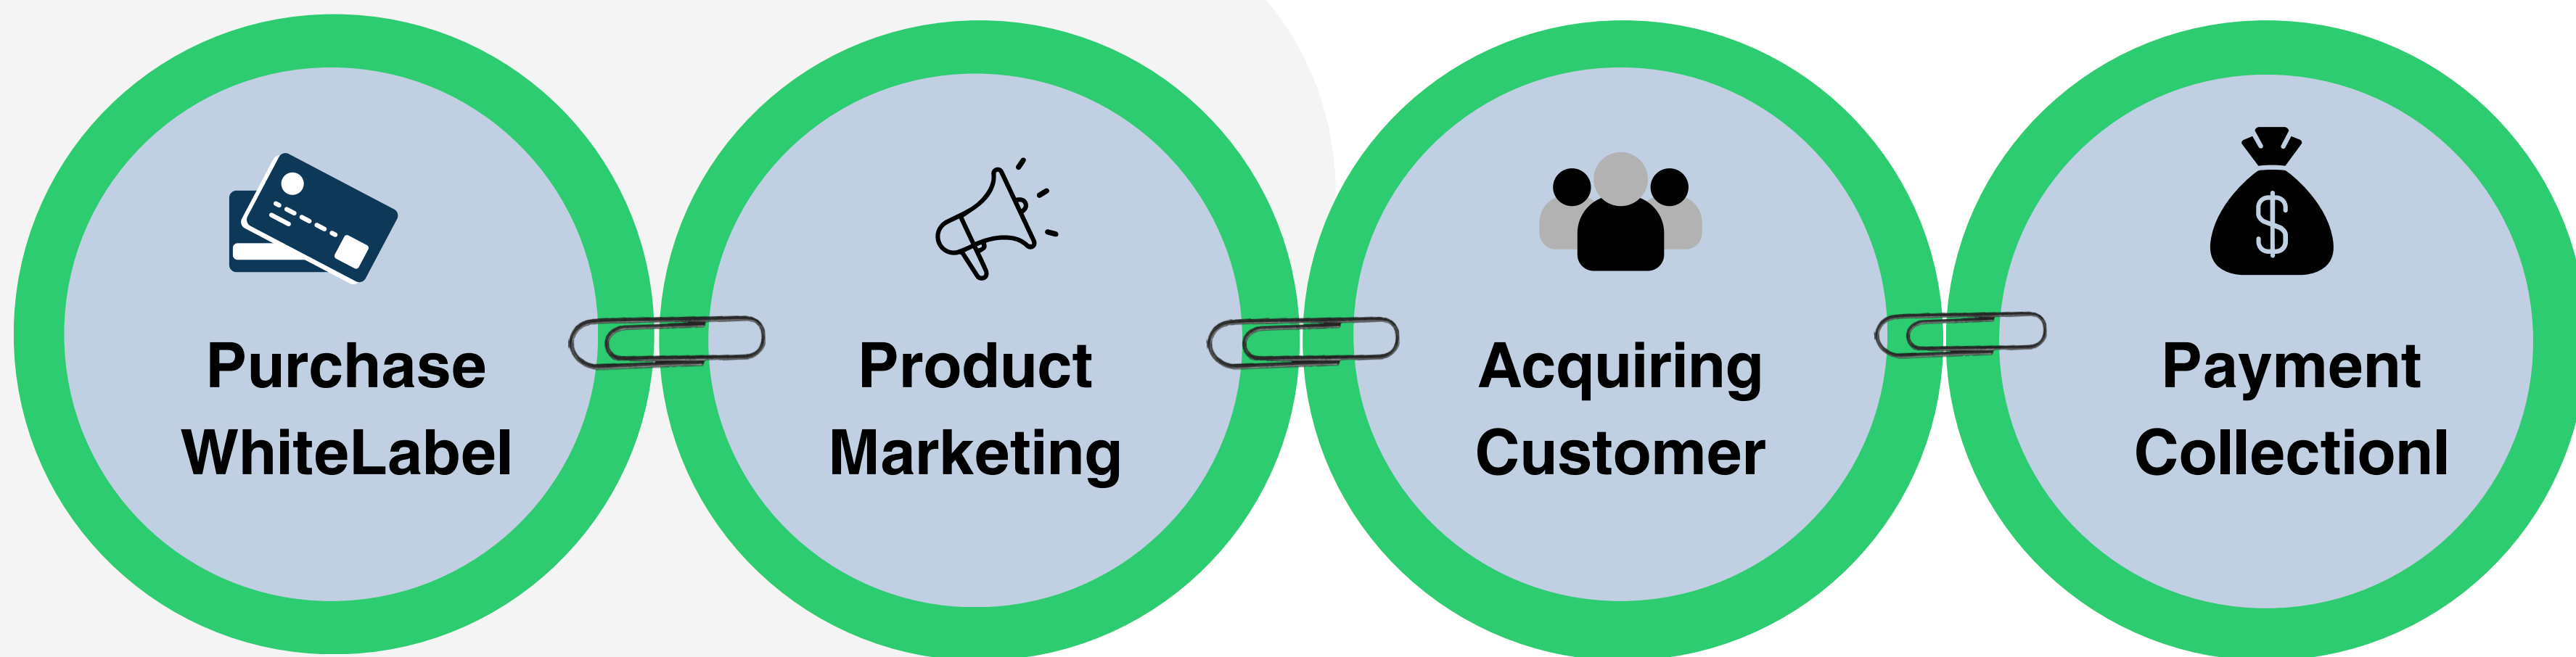

As a reseller, you have the flexibility to set your own prices for the software solution. Consider your costs, the value of the product, and the pricing of similar solutions in the market.

MARKET YOUR SOLUTION

Once you have your pricing and customization in place, it's time to market your solution to potential clients. Consider using social media, email marketing, and targeted advertising to reach your target audience.

PROVIDE SUPPORT

As a reseller, it's important to provide excellent customer service and support to your clients. Make sure you have the necessary resources in place to answer questions, troubleshoot issues, and provide ongoing support to your clients.
